

INJECTION MOLDED CASES - PELICAN LIMITED LIFETIME GUARANTEE OF EXCELLENCE

Pelican Products, Inc. guarantees its products for a lifetime against breakage or defects in workmanship. Pelican™ injection molded cases are guaranteed to be watertight to a depth of 3.3 feet (1 meter) for 30 minutes (IP 67) if properly closed with undamaged o-ring in place unless otherwise stated. To the extent permitted by law, Pelican's liability is limited to the case and not its contents or foam. All warranty claims of any nature are barred if the container has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident.

THE ULTIMATE DIVIDER SYSTEM FOR THE ULTIMATE CASE.

You've always trusted Pelican™
to protect your sensitive gear.
Now with our exclusive
TrekPak™ system you can kit
out your case with the precision
your equipment deserves.

CLEAN AND STRONG

The TrekPak™ system uses pre-installed wall sections, divider panels, locking pins and a fool-proof cutting tool. Just lay your gear in the case, measure and cut the divider sections and lock them in place with the steel U-pins. We include extra divider material so you can change your mind, plus divider panels are also available separately

so you can
reconfigure your
dividers anytime.

The results are impressive. The divider sections are manufactured from waterproof, closed cell foam that is laminated to a rigid corrugated plastic panel. Light, strong and almost impossible to tear or shred, these panels will keep your gear safe for years.

THE CUTTING EDGE

Trimming the dividers to length is a snap.

TrekPak's exclusive double blade tool has a center guide that tracks in the corrugated center. Just place the tool in any hole and pull. The blades follow the slot for a perfectly straight cut every time.

THE NEW SPACE RACE

You'll be amazed at how much more gear you can get into your new case. At just 7/16" thick, these rigid panels form a precise grid of protection without wasting any space. Together with the included 1" bottom foam and convoluted lid foam, the TrekPak™ system forms a 360-degree cocoon inside your Pelican case

To many of our customers, using a Pelican™ case is the mark of a pro. Now the inside of your case can look just as professional.

Durable
closed cell foam
for long life

Change it up
Reusable and
modular dividers
for future
modifications
