Green Night Vision Light

High/Low White Light

PELICAN™ 2370 LED FLASHLIGHT

# GET DIALED IN.

Rotating three way magnetic selector ring  
for multi-colored light.

## THE 2370 LED FLASHLIGHT

### NIGHT VISION RED OR GREEN AND BRIGHT WHITE LIGHT

Our most sophisticated aerospace grade aluminum flashlight, Pelican's 2370 LED flashlight functions as 3 lights in one.

A rotating magnetic dial changes between bright white light and night vision red or blue light, so the 2370 LED is the only light you need, whether piloting an aircraft or navigating a park trail at night. The anodized aluminum body is strong and light weight while the strengthened steel clip fastens securely to your pocket.

**The 2370 LED:**  
It keeps you dialed in to the action.
