INTRODUCING THE 9435 RALS: THE 1ST SAFETY APPROVED AREA LIGHT

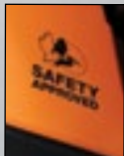

CLASS I DIVISION 2 GROUPS ABCD T4

Pelican Products builds the most safety approved handheld lights in the U.S. market. Now Pelican adds the Pelican 9435 RALS, our first safety approved Remote Area Lighting System. Its 1500 lumens illuminate hazardous locations and, with two power settings, the 9435 extends burn time up to 10 hrs. of clean, even light.

At Pelican, designing a lighting system that's safe to use in volatile situations isn't optional. It's fundamental to our philosophy.

The fully extendable mast with 360° rotating head fits light in confined or open spaces

Look for Pelican's Safety Approval mark for confidence in hazardous areas

Low battery indicator provides ample warning to recharge

BATTERY BURN TIME	TESTED LUMEN VALUE	BATTERY TYPE	COLORS	WEIGHT
10 hrs. (Low) 5 hrs. (High)	750 (Low) 1500 (High)	NiMH	■ ■	17.6 lbs. (7.98 kg)
