TECH BULLETIN | 08/01/18

INCANDESCENT LIGHTS TO BE DISCONTINUED IN 2018

Light output and lifespan of newer
LED technology has surpassed that of
incandescents. In an effort to keep the
Pelican™ lighting line fresh and innovative,
we will be discontinuing our incandescent
light models. The list below details those
models and suggested replacements.

We hope this advance notice will allow for any necessary adjustments in your marketing materials and order placements. We will attempt to support these items up to October 1, 2018. However, some incandescent lights have limited quantities and will be treated as "while supplies last".

Effective October 1, 2018 these models will be removed from our price list and website.

Please contact our customer service team for additional support.
